11. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

(i) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in these financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

"Recurring fair value measurements at 30 September 2023"	Level 1	Level 2	Level 3	Total
---	---------	---------	---------	-------

----- (Rupees in thousand) -----

Financial assets

Financial assets at fair value through profit or loss	-	810,713	-	810,713
---	---	---------	---	---------

"Recurring fair value measurements at 30 June 2023"	Level 1	Level 2	Level 3	Total
--	---------	---------	---------	-------

----- (Rupees in thousand) -----

Financial assets

Financial assets at fair value through profit or loss	-	-	-	-
---	---	---	---	---

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the period. Further there was no transfer in and out of level 3 measurements.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.
